Une grande flexibilité grâce à de nombreuses interfaces

Avec leurs nombreuses interfaces, les ordinateurs portables Satellite Pro C50 et L70 sont des compagnons polyvalents dans la vie professionnelle quotidienne, au bureau comme en déplacement. Les ports USB 2.0 et USB 3.0 assurent des connexions faciles aux supports de stockage ou à d'autres appareils périphériques, avec une performance jusqu'à dix fois plus élevée pour l'USB 3.0. L'interface Gigabit-LAN (Satellite Pro C50-A-1C9, C50-A-1FM, L70-A-13U) permet des transferts de données rapides au sein de l'entreprise. De plus, avec le HDMI®, ces portables pour professionnels peuvent être connectés rapidement à des écrans ou à des projecteurs externes. Et grâce à la technologie Bluetooth® 4.0 intégrée, la synchronisation des appareils mobiles s'effectue sans câble, en tout confort.

Des écrans anti-reflets : mieux travailler, quelle que soit la luminosité

Les quatre nouveaux ordinateurs portables sont équipés d'écrans anti-reflets hautement qualitatifs HD voire HD+ (Satellite Pro L70-A-13U). Réduisant les reflets lorsque la lumière tombe sur la surface de l'écran, ils autorisent ainsi un travail plus ergonomique, moins fatigant pour les yeux, même là où la luminosité varie souvent, comme en plein air ou dans le train.

Parfaits non seulement pour le travail, ces écrans permettent de savourer le plaisir du multimédia en restituant les vidéos et les images dans des teintes vivantes et avec une finesse de définition extrême. Les haut-parleurs haute qualité avec amélioration sonore DTS® Studio

Sound™ offrent un son clair et des basses bien présentes pour un plaisir musical détendu. Sur tous les nouveaux modèles, les disques durs et leur capacité de 500 Go offrent suffisamment d'espace pour les documents, films, jeux, photos et autres contenus de divertissement.

Toutes les marques commerciales mentionnées sont la propriété de leurs détenteurs.

Sous réserve de modifications des spécifications et des configurations des produits, et de leur disponibilité. Des divergences concernant le design du produit, ses caractéristiques et au niveau des couleurs représentées sont possibles. Sauf erreur.
